Re: Medley Farm NPL Site, Gaffney, South Carolina

Dear Mr. MacFarlane:

This is in response to Patrick M. Tobin's letter to Ethox Chemicals, in care of the below-signed, dated July 24, 1987 with respect to the above-captioned.

Ethox Chemicals is willing to participate and to do its part in the further investigative and/or cleanup work that is needed at the Medley farm site. An agreement has been reached among most of the "potentially responsible parties" for the Medley site, and I think that EPA can expect that the cooperation that it will receive from those who have so agreed will be sufficient to accomplish the purposes outlined in Mr. Tobin's letter of July 24, 1987.

With respect to the meeting that has been tentatively scheduled to be held during the week of August 31, 1987 at 1:00 p.m. at the EPA offices in Atlanta, Georgia, this is to advise that I have a conflict for Friday, September 4, 1987, and I will appreciate your scheduling this meeting for some other date during that week.

With kind regards,

RAINEY, BRITTON,
GIBBES & CLARKSON, P.A.

John P. Britton
